## **WorkerBee Van Rental**

You won't find a Queen Bee at WorkerBee. You will find female worker bees in this small business enterprise owned predominantly by Filipino business women. That's what separates WorkerBee from the rest. And, it is the service at WorkerBee that defines a travel experience for business, leisure, or out of necessity.

Anyone can take you from A to B. WorkerBee can take you, your family, and guests to your destination and back, safely and comfortably, with travel services expected by Filipinos and foreigners alike.
